

Submission of Reports

2018

Overview

- Generic Submission Utility
- Preparation of Secure Statement Package
- Upload on Reporting Portal
- Upload through Submission Utility
- View Submission Details

Submission Utility

Submission Utility

- Generic Submission Utility enables user to digitally sign the statements and generate the secure statement package.
- Key features
 - Sign the XML
 - Generate Secure Statement Package
 - Upload Secure Statement Package
 - View Uploaded Statements
 - Download DQR

The Submission Utility is available under “Resources” section of Reporting Portal.

Preparation of Secure Statement Package

Select XML

The screenshot shows the 'Generic Submission Utility' application window. The main interface has a header with the logo and title, and a navigation bar with 'Instructions', 'Secure XML', and 'Statement' tabs. Below this is a 'Report Preparation' section with a 'Select file for packaging*' label. A 'Browse XML file' button is highlighted with a red box, and the text 'SFT001_Correct.xml' is visible in the adjacent input field. A 'Generate Package' button is also present.

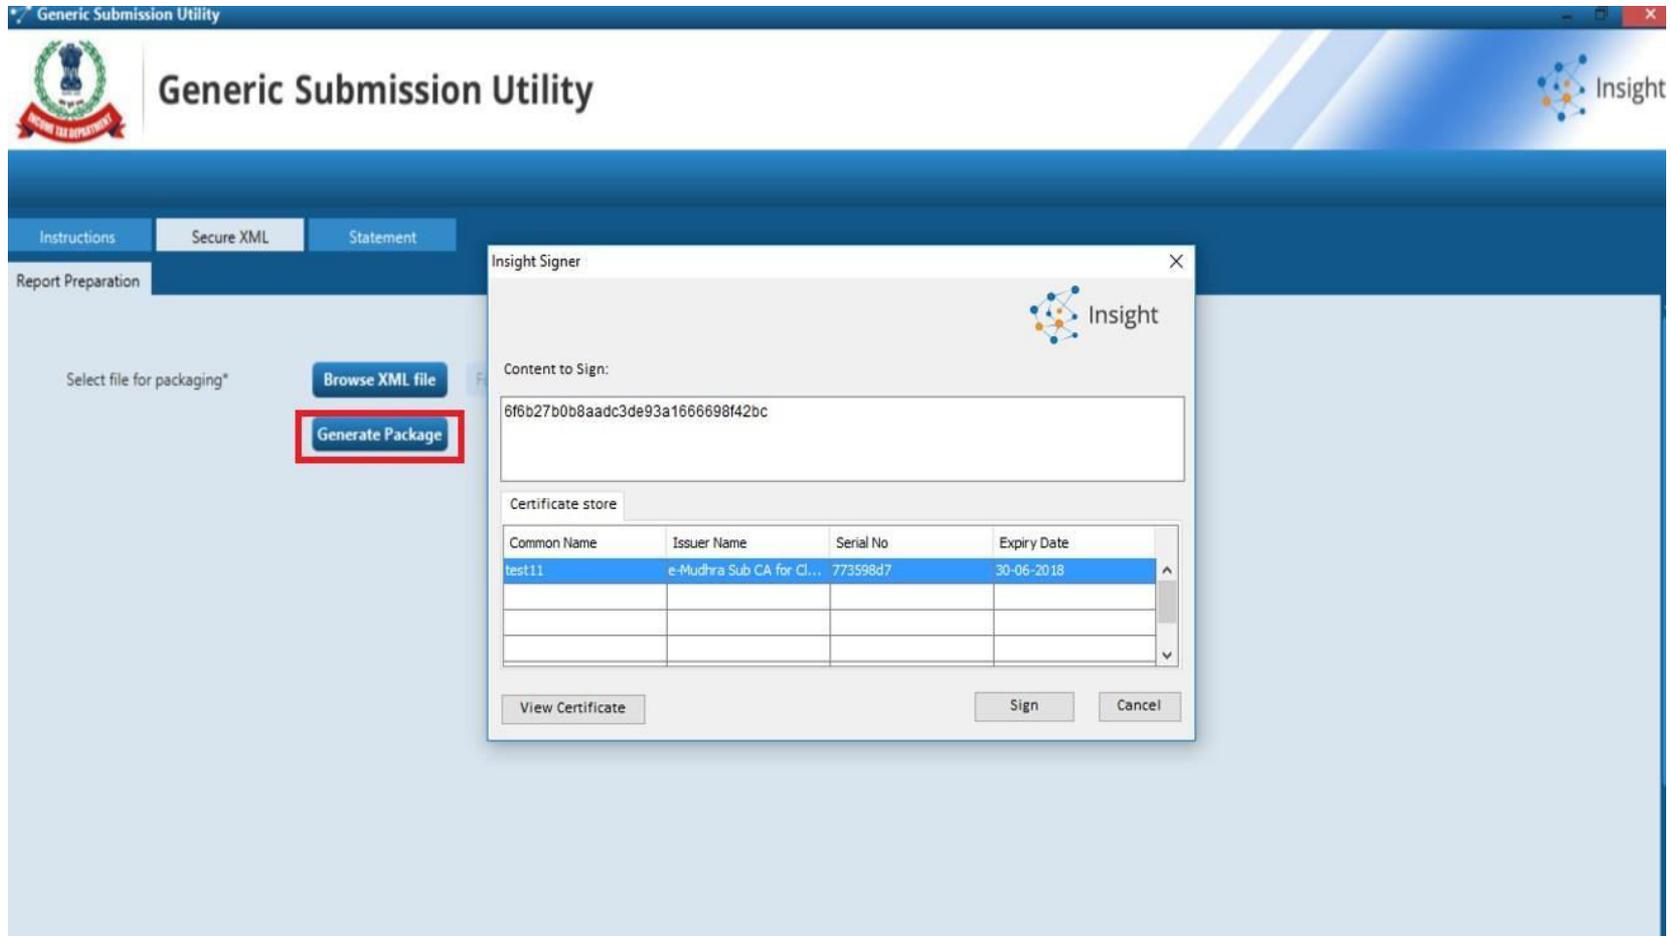

An 'Open XML' dialog box is overlaid on the right side of the application. It shows the file explorer view for the path 'Updated Utilities > Testing'. The file list is as follows:

Name	Date modified	Type
encrypted	02-01-2018 15:38	File folder
Submission Utility Testing	09-01-2018 15:51	File folder
temp	17-01-2018 11:37	File folder
Testing for Statement Upload	12-01-2018 12:31	File folder
1000032508_DQR.xml	03-01-2018 11:30	XML Document
ABCDE1313F_Corrected.xml	03-01-2018 13:17	XML Document
Form 61A.xml	02-01-2018 15:43	XML Document
Form61.xml	04-01-2018 18:51	XML Document
Form61B.xml	12-01-2018 12:20	XML Document
witherror.xml	12-01-2018 17:18	XML Document

The 'File name' field at the bottom of the dialog is set to 'Form 61A.xml' and the file type is 'XML File (*.xml)'. The 'Open' button is highlighted.

- Select statement XML prepared through report generation utility
- XML file should be with “.xml” extension

Select Digital Certificate

The screenshot shows the 'Generic Submission Utility' application window. The main interface has tabs for 'Instructions', 'Secure XML', and 'Statement'. Under 'Statement', there is a 'Report Preparation' section with a 'Select file for packaging*' label and two buttons: 'Browse XML file' and 'Generate Package'. The 'Generate Package' button is highlighted with a red box. An 'Insight Signer' dialog box is open in the foreground. It contains the following information:

Content to Sign:
6f6b27b0b8aac3de93a1666698f42bc

Certificate store

Common Name	Issuer Name	Serial No	Expiry Date
test11	e-Mudhra Sub CA for Cl...	773598d7	30-06-2018

Buttons at the bottom of the dialog: View Certificate, Sign, Cancel.

- Select relevant digital certificate to sign the statement
- DSC should be connected to the system through USB while generating package

Sign the Statement

The screenshot shows the 'Generic Submission Utility' application window. The main interface has tabs for 'Instructions', 'Secure XML', and 'Statement'. The 'Statement' tab is active, showing a 'Report Preparation' section with a 'Select file for packaging*' label and two buttons: 'Browse XML file' and 'Generate Package'. An 'Insight Signer' dialog box is overlaid on the main window. The dialog box contains the following elements:

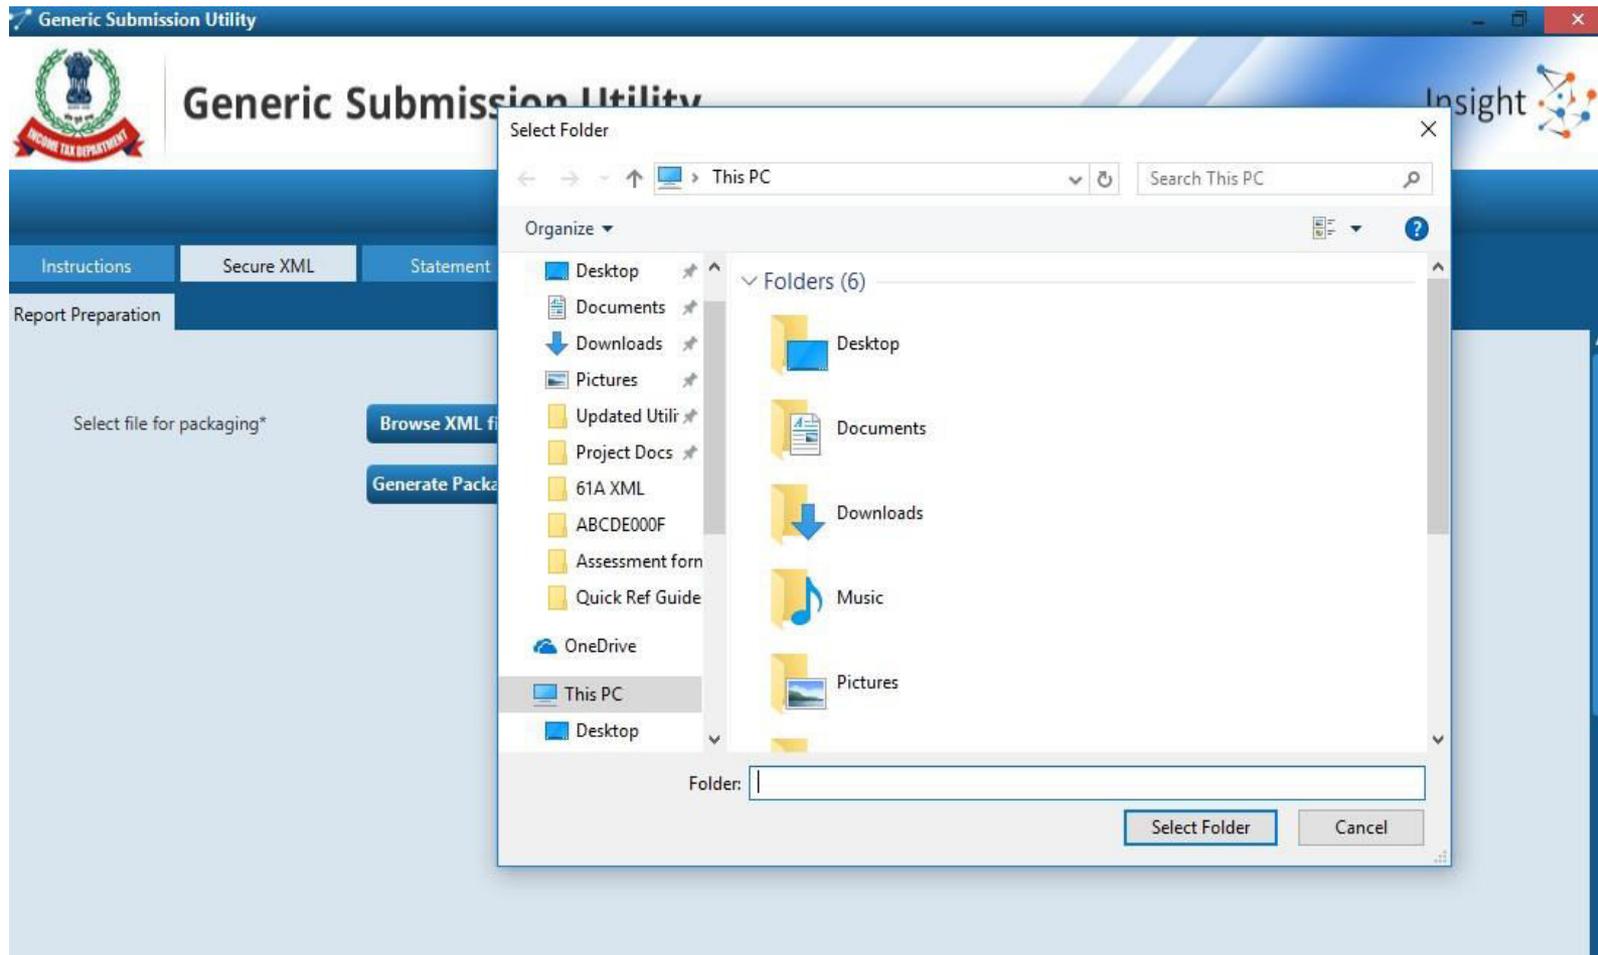

- Content to Sign: 6f6b27b0b8aad3de93a1666698f42bc
- Certificate store table:

Common Name	Issuer Name	Serial No	Expiry Date
test11	e-Mudhra Sub CA for Cl...	773598d7	30-06-2018

At the bottom of the dialog box, there are three buttons: 'View Certificate', 'Sign' (highlighted with a red box), and 'Cancel'.

- DSC of Class II or III, issued by CCA approved certifying agencies in India, should be used

Save Statement Package

- Digitally signed Statement shall be saved with “.tar.gz” extension

Contents of Secure Statement Package

Statement Upload
Uploaded Statements

Upload Statement	
Reporting Entity PAN/TAN	ABCD00009F
Reporting Entity Category	Others
Form Name	FORM 61A
Financial Year/Reporting Period	2017-2018
SFT Code*	001 - Purchase of bank drafts or pay orders in c
Filing Type*	Original
Statement(.zip/.tar.gz)*	<input type="button" value="Browse..."/> No file selected.
<input type="button" value="Upload"/>	

- Fill the upload form on reporting portal
- In case of correction statement, additional field “Original Statement Id” will also appear

Manifest Validation

The screenshot shows the Reporting Portal interface. At the top left is the Income Tax Department logo. The main header includes 'Reporting Portal' and 'Insight' with a network icon. A navigation bar contains links for Home, Profile, Statements, Compliance, Requests, Messages, Resources, Forum, Help, and Feedback. Below the navigation bar, a welcome message 'Welcome Test Name' and a 'Logout' link are visible. The main content area has a breadcrumb trail: Home > Statements > Statement Upload. On the left, there is a sidebar with 'Statements', 'Statement Upload', and 'Uploaded Statements'. The main content area displays a red error message box with the following text:

40003-Please re-upload the file with correct Reporting Period.
40004-Please re-upload the file with correct statement type.
40006-Incorrect value in Number of Reports. Number of reports should be more than 0 in case statement type is NB/ 0 in case statement type is ND.
40007-Incorrect SFT Code mentioned. Please provide correct SFT Code.
50004-Invalid digital signature.

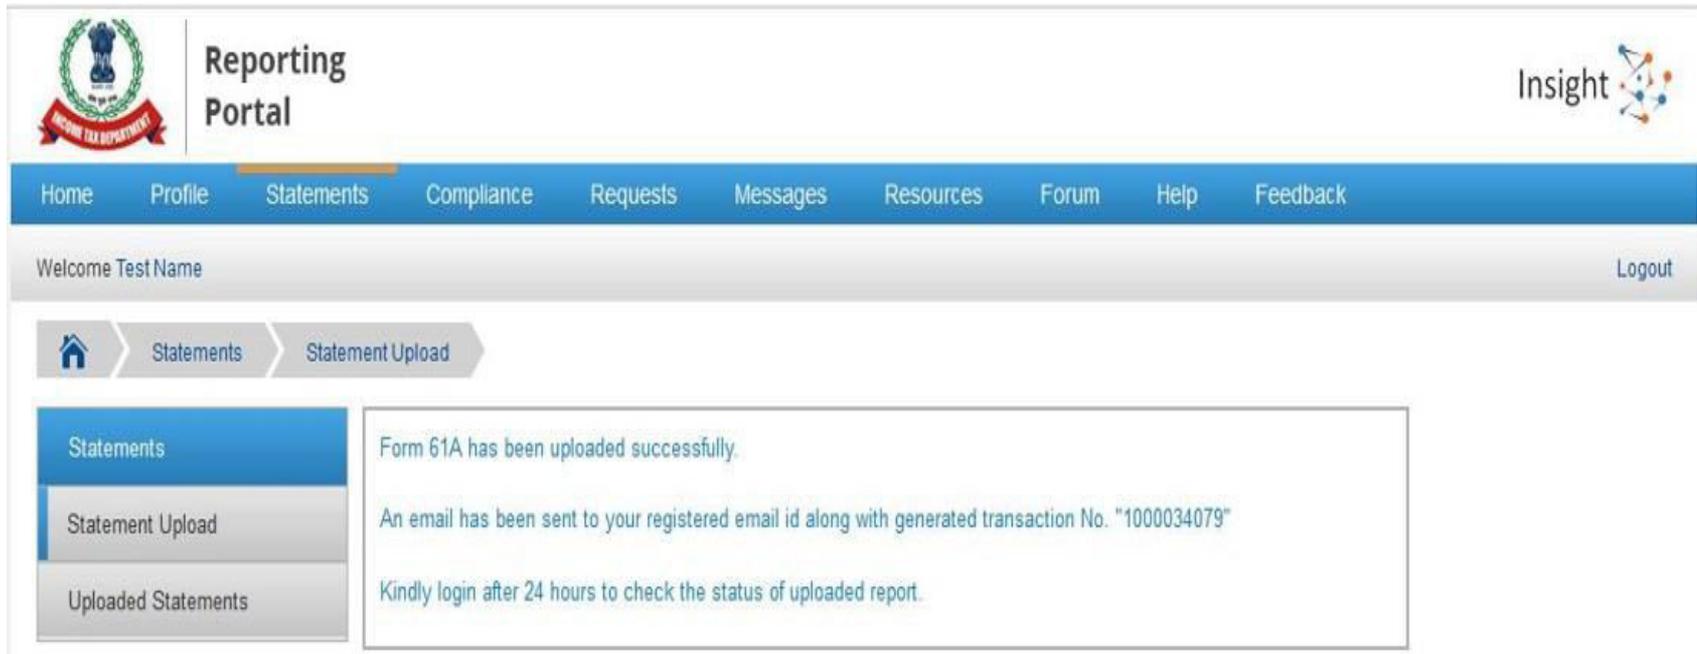

Below the error message is the 'Upload Statement' form:

Upload Statement	
Reporting Entity PAN/TAN	ABCDE8989F
Reporting Entity Category	Banking Company
Form Name	FORM 61A
Financial Year/Reporting Period	2015-2016
SFT Code*	005 - Time deposit.
Filing Type*	Nil
Statement(.zip/.tar.gz)*	<input type="button" value="Browse..."/> witherrorxmlnew.tar.gz

At the bottom of the form is an 'Upload' button.

- Form details should match with statement details (Part A)
- Errors appearing in manifest check have to be rectified

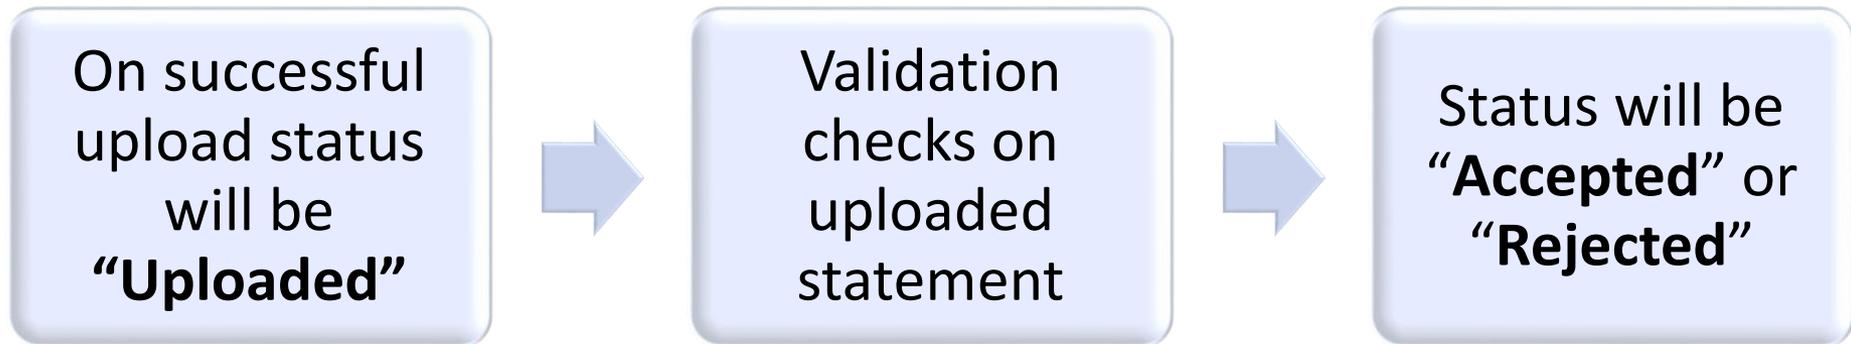

Acknowledgement of Successful Upload

The screenshot displays the 'Reporting Portal' interface. At the top left is the logo of the Income Tax Department of India. The main header includes the text 'Reporting Portal' and the 'Insight' logo. A navigation bar contains links for Home, Profile, Statements, Compliance, Requests, Messages, Resources, Forum, Help, and Feedback. Below the navigation bar, a welcome message 'Welcome Test Name' is shown on the left, and a 'Logout' link is on the right. The main content area features a breadcrumb trail: Home > Statements > Statement Upload. On the left side of the main content area, there is a sidebar with three menu items: 'Statements', 'Statement Upload', and 'Uploaded Statements'. The 'Statement Upload' menu item is highlighted. The main content area displays a confirmation message: 'Form 61A has been uploaded successfully. An email has been sent to your registered email id along with generated transaction No. "1000034079" Kindly login after 24 hours to check the status of uploaded report.'

- On successful upload, acknowledgement message will be displayed
- Email will be sent to registered id along with transaction number
- Upon successful validation (schema & file level checks) unique statement id will be generated

Data Quality Management

Data Quality Management

Defects & Exceptions

- **Defects**

- Defects are those which render the record(s)/ statement invalid
- The reporting entity would be required to file the correction statement to rectify the defect

- **Exceptions**

- Exceptions are those which would not result in the statement/report being rejected
- These only affect the quality of the data.
- However reporting entity should endeavour to rectify the exceptions

Manifest Level Defects

- Failed ITDREIN (40001)
- Failed Form Name (40002)
- Failed Reporting Period (40003)
- Failed Statement Type (40004)
- Failed Original Statement ID (40005)
- Failed Number of Reports (40006)
- Failed SFT Code (40007)
- Failed Reason for correction (40009)

File Level Defects

- Failed Decryption (50002)
- Failed Decompression (50003)
- Failed Signature Check (50004)
- Failed Threat Scan (50005)
- Failed Virus Scan (50006)
- Failed Schema Validation (50007)
- Failed Signature Upload (50008)
- Signature Expired (50009)

Record level Defects

1. Failed Number of Reports for Statement type NB/ND (61A_60040)
2. Failed Original Report Serial Number in CB (61A_60031)
3. Failed Original Report Serial Number in NB (61A_60039)
4. Failed Account Number (61A_60034)
5. Failed Cash deposit addition value (61A_60033)
6. Failed PAN (61A_60047)
7. Failed Report type (61A_60042)
8. Failed Father's Name (61A_60046)*
9. Failed Form 60 Acknowledgment Number (61A_60049)*
10. Failed Identification Type (61A_60050)*
11. Failed Identification Number(61A_60051)*
12. Failed DOB/DOI (61A_60052)*
13. Failed Birth Date (61A_60014)

* if PAN is not provided

Data Quality Report (DQR) and Reports Requiring Correction (RRC)

- **Data Quality Report (DQR)**
 - Contains details of the data quality errors present in the statement submitted by the Reporting Entity.
 - Helps Reporting Entity(s) in identifying the errors in data submitted.
- **Reports Requiring Correction (RRC)**
 - Number of original reports in the statement where defects have not been corrected

Download Data Quality Report through Submission Utility

The screenshot displays the 'Generic Submission Utility' web application. The interface features a header with the Indian government logo and the text 'Generic Submission Utility'. Below the header, there is a navigation bar with tabs for 'Instructions', 'Secure XML', and 'Statement'. Underneath, there are sub-tabs for 'Statement Upload', 'Uploaded Statement', and 'Download DQR'. The main content area shows a login form with fields for 'User(Authorized)*' (containing 'AXPPN7441H'), 'Password*', and 'Statement Id*' (containing '304052670401218'). A 'Download DQR' button is visible below the Statement Id field. An 'XML file' dialog box is open in the foreground, showing a file explorer view of the user's 'Reshmi Nadar' profile. The dialog box displays a list of folders and files, with the 'File name' field set to '1000039480_DQR' and the 'Save as type' set to 'XML File (*.xml)'. The 'Save' button is highlighted.

- User need to provide 15 digit statement Id to download corresponding DQR.

Rectification of Reports

Import DQR & Original Statement in Report Generation Utility

The screenshot displays the 'Report Generation & Validation Utility | Form 61A' interface. The main window features a header with the Income Tax Department logo and the title 'Report Generation Utility Statement of Financial Transactions (Form 61A)'. A navigation bar includes buttons for 'Open', 'Save', 'Validate', 'Generate XML', and 'View DQR' (highlighted with a red box). Below the navigation bar, there are tabs for 'Instructions', 'Statement (Part A)', and 'Validation Errors'. A dropdown menu is set to 'Select' with a 'Continue' button. A 'Validation Error Details' pane on the right lists 'Mandatory Errors', 'Defects', and 'Exceptions'. An 'Import DQR Window' dialog is open, containing two text input fields: 'Import DQR Reports' and 'Import Statements', each followed by a 'Browse' button. At the bottom of the dialog are 'OK' and 'Cancel' buttons. The background also shows 'General Instructions' for the utility.

- Import data quality report and original statement which is to be corrected in report generation utility
- Statement number mentioned in DQR should match with statement number of original statement (which is being corrected)

View the Errors

The screenshot displays the 'Report Generation & Validation Utility | Form 61A' application. The interface includes a menu bar with 'Open', 'Save', 'Validate', 'Generate XML', and 'View DQR'. Below the menu is a navigation bar with tabs for 'Instructions', 'Statement (Part A)', 'Report Details (Part B)', 'Financial Transactions (Part B)', and 'Validation Errors'. The 'Validation Errors' tab is active, showing a table of report data and a sidebar for 'Validation Error Details'.

Report Serial No	Total Error Count	Mandatory Errors Count	Defects Count	Exceptions Count
6	8	1	3	4
7	8	1	3	4
8	8	1	3	4
9	8	1	3	4
10	8	1	3	4
11	8	1	3	4
12	8	1	3	4
13	8	1	3	4
14	8	1	3	4
15	8	1	3	4
16	8	1	3	4
17	8	1	3	4

The 'Validation Error Details' sidebar shows a dropdown for 'Mandatory Errors' and a list of error messages for Report Serial Number : 6, including 'Provide valid Address'. Other error categories like 'Defects' and 'Exceptions' are also visible in the sidebar.

Errors from each report will be highlighted in the **Validation Error Details** sidebar.

Validation Error Details

- > Mandatory Errors
- ▼ Defects
- Report Serial Number : 1
- Provide correct PAN or Form 60 Acknowledgement number
- > Exceptions

Select the validation error to be rectified and make required changes.

Generate Correction Statement

- Update “Part A” by selecting Statement Type as “CB - Correction statement containing correction for previously submitted information”.
- Mention the statement ID of the original Statement which is being corrected in the “Original Statement ID” field.
- Generate correction XML
- Submit correction statement on reporting portal

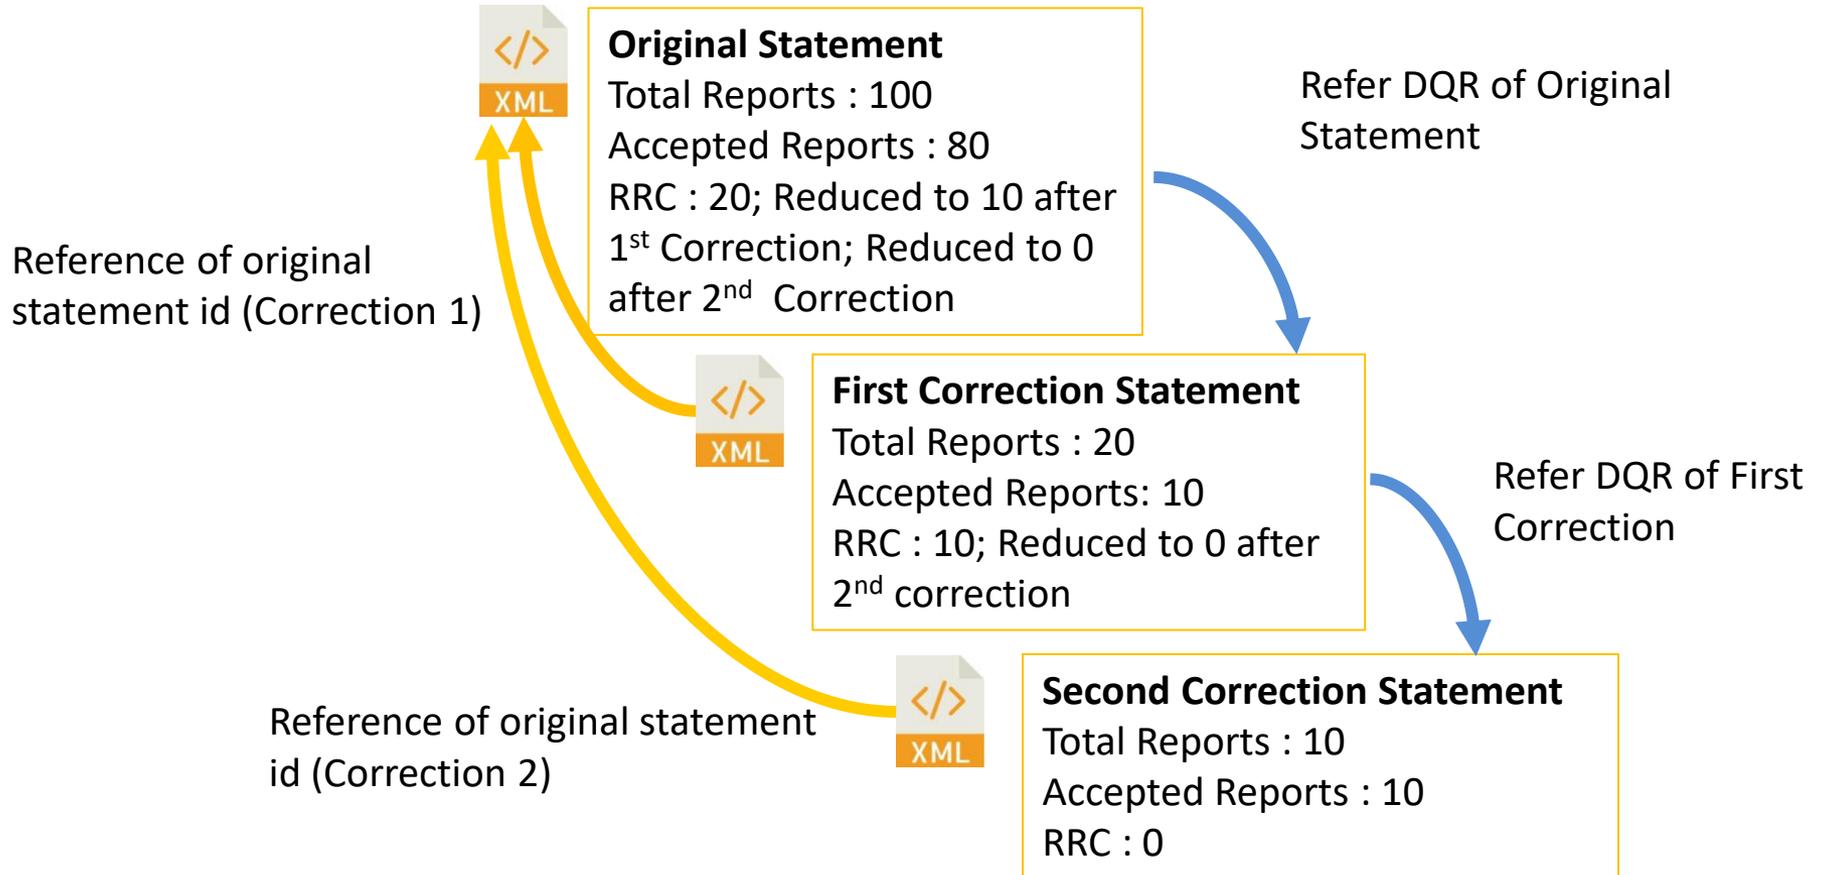

Reports Requiring Correction (RRC)

Report Requiring Correction (RRC)

- Report requiring correction (RRC) field will display the number of reports which are yet to be rectified in original statement.
- RRC field and count can be viewed under “Statements Pending for Correction” tab on reporting portal.
- Reporting entity need to ensure to reduce RRC (Report Requiring Correction) count to zero by rectifying all the defective reports.

Correction Logic to Reduce RRC (Report Requiring Correction) Count

- “Original Statement Id” field of each correction statement should always refer to statement id of original statement.
- Data Quality Report (DQR) generated on last filed statement (original or correction) should be referred
- **Please refer annexure for use case of “Correction logic to reduce RRC count”.**

Thank You!!
