

The journey of professional excellence

Presentation to young
Chartered Accountants

CA (Dr.) Abhijit Phadnis
May 16, 2015

Excellence

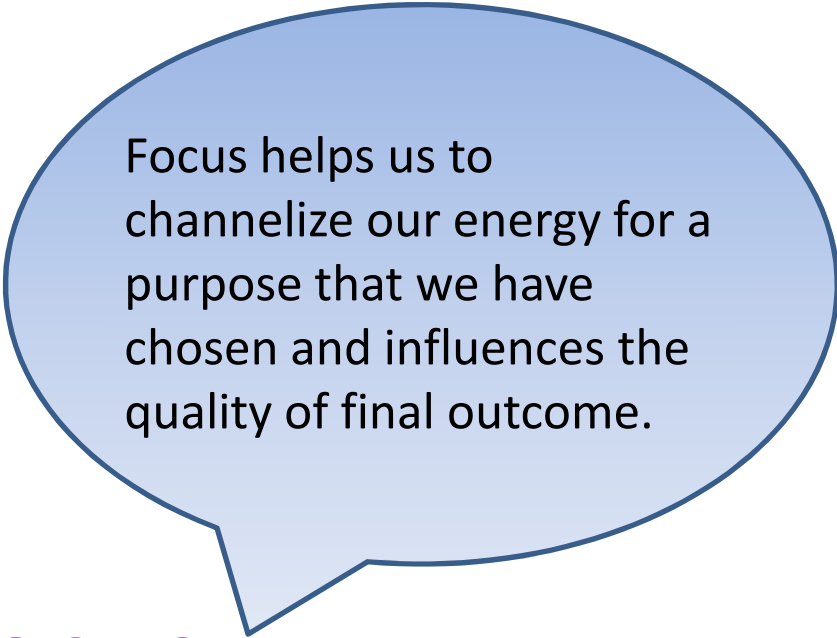

It is an outwardly expression of inherent attitude, qualities & skills which make a positive contribution to human life: our own & that of others!

Satisfying ! Creates a virtuous cycle ! Builds self-esteem ! This habit creates many spillover effects ! It can motivate teams that we get to lead!

Let's talk about it in a greater detail !!

We are going to talk about professional excellence today. But, excellence is an attitude which is applicable in everything that we do!

Excellence is not God given. We need to acquire & sharpen. Earlier we inculcate it, better it is. Excellence is about attitude not skills alone.

Focus helps us to channelize our energy for a purpose that we have chosen and influences the quality of final outcome.

Focus

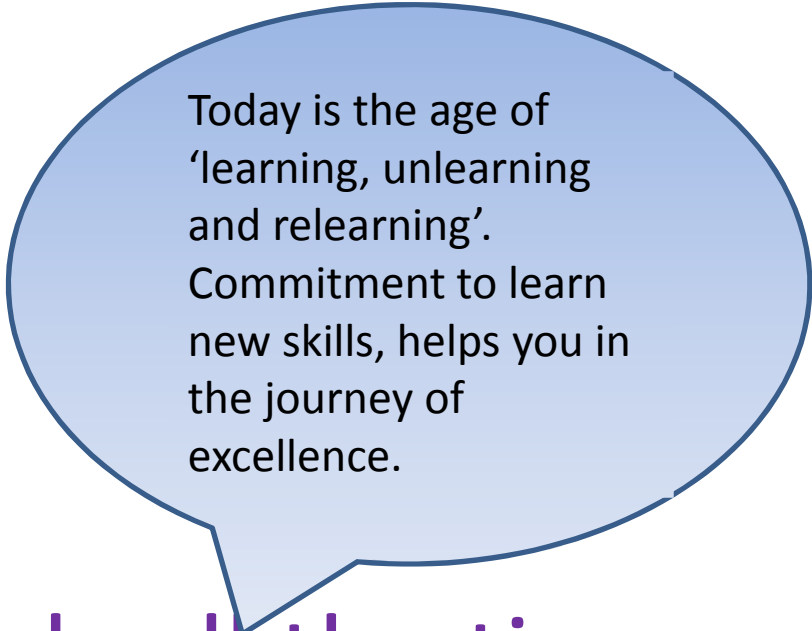

Commitment brings consistency of effort. **It enhances our reputation about dependability.**

Commitment

Proactive communication
saves our time and
energy as it avoids
misgivings and
misunderstanding.

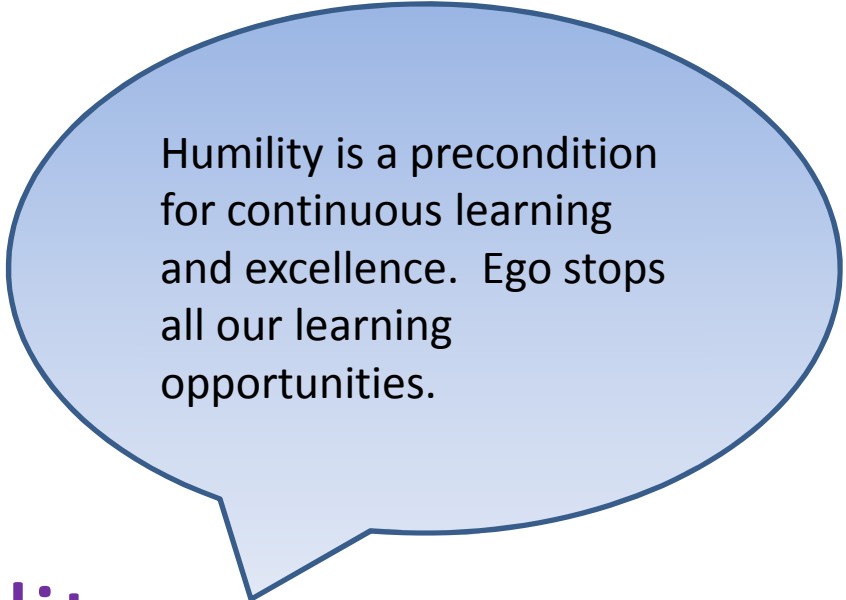

Proactive communication

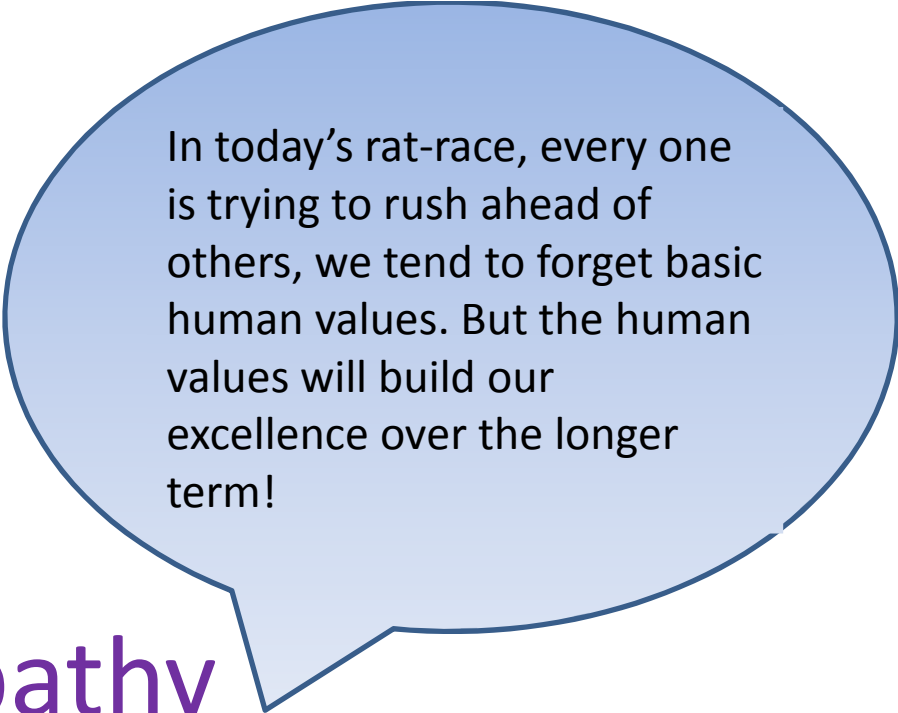

Today is the age of
'learning, unlearning
and relearning'.
Commitment to learn
new skills, helps you in
the journey of
excellence.

Sharpen your tools all the time

Humility

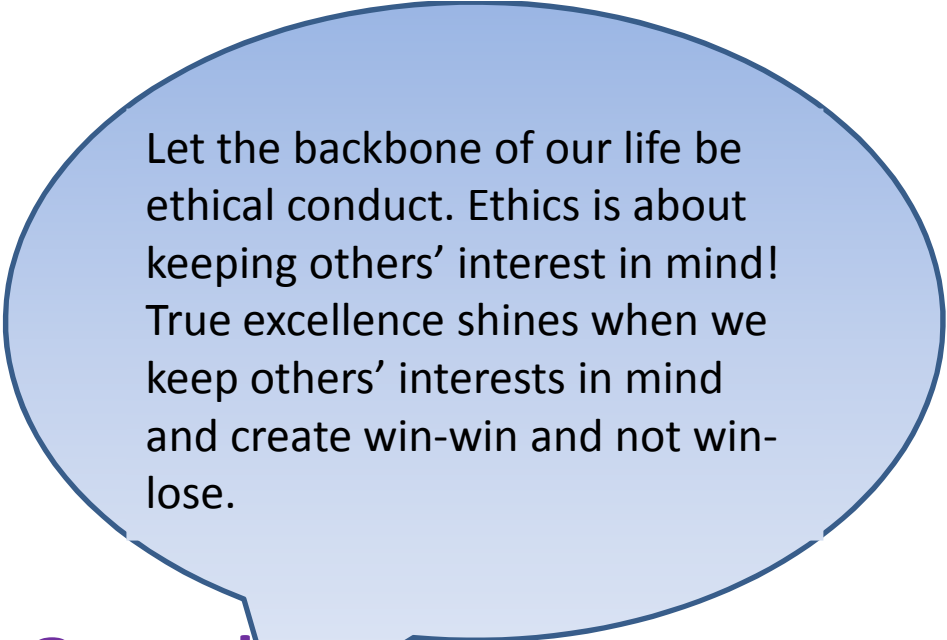

Humility is a precondition for continuous learning and excellence. Ego stops all our learning opportunities.

In today's rat-race, every one is trying to rush ahead of others, we tend to forget basic human values. But the human values will build our excellence over the longer term!

Empathy

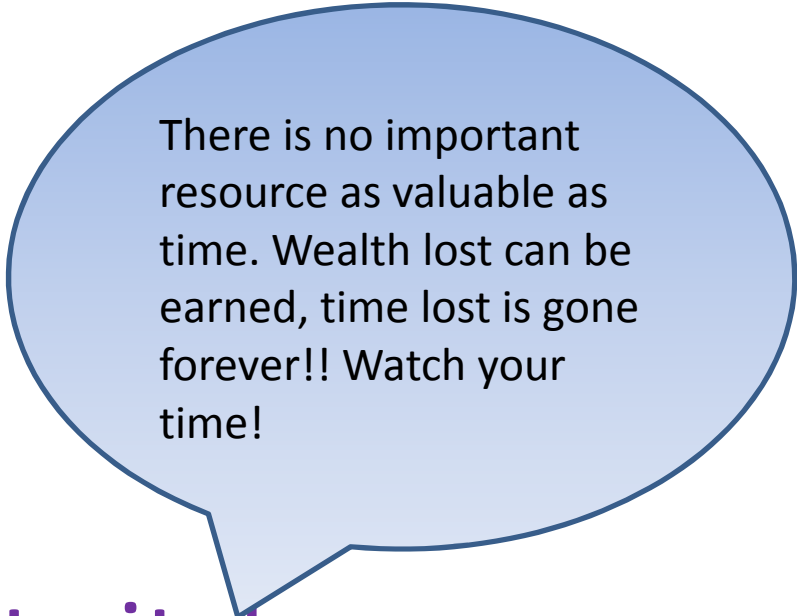

Let the backbone of our life be ethical conduct. Ethics is about keeping others' interest in mind! True excellence shines when we keep others' interests in mind and create win-win and not win-lose.

Ethics & values

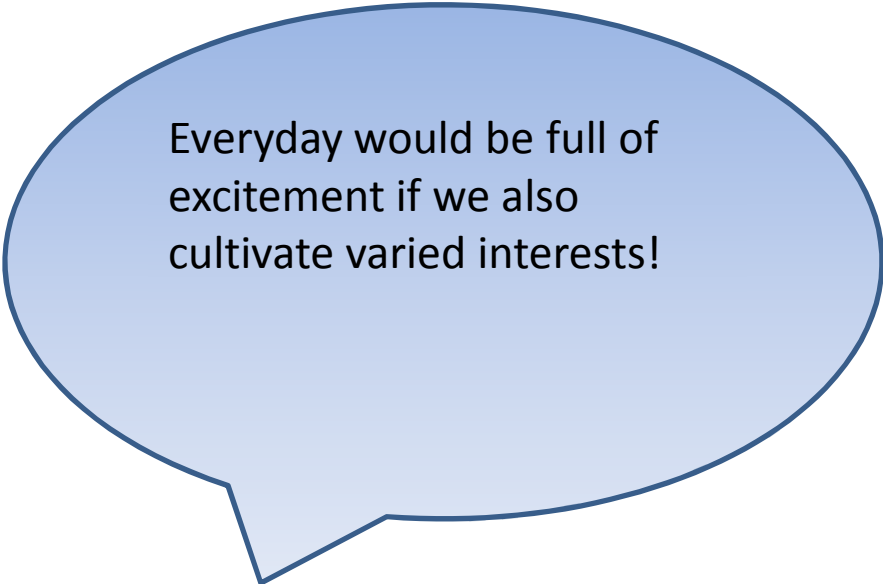

Ensure that you were a shade better than what you were yesterday, in whichever respect.

Compete with yourself

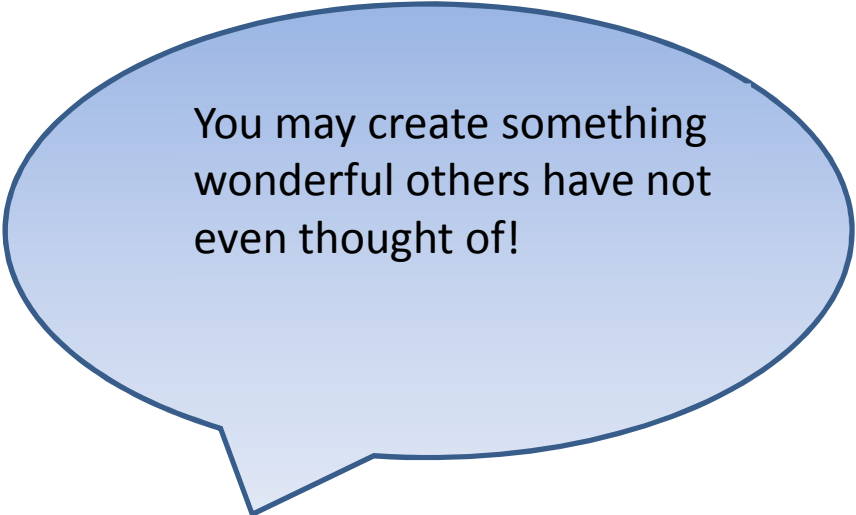

There is no important resource as valuable as time. Wealth lost can be earned, time lost is gone forever!! Watch your time!

Time is your most vital resource

Everyday would be full of
excitement if we also
cultivate varied interests!

Cultivate other interests!

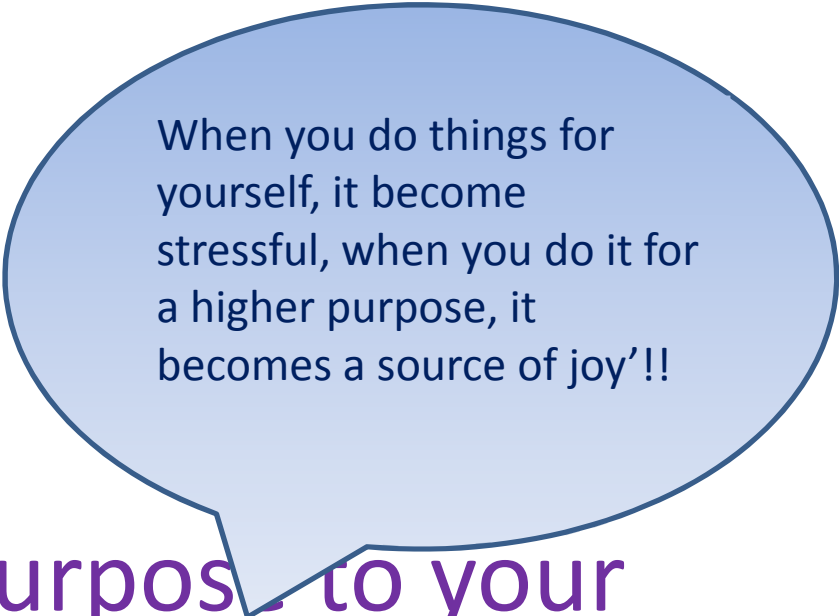

You may create something
wonderful others have not
even thought of!

Take risks & experiment!

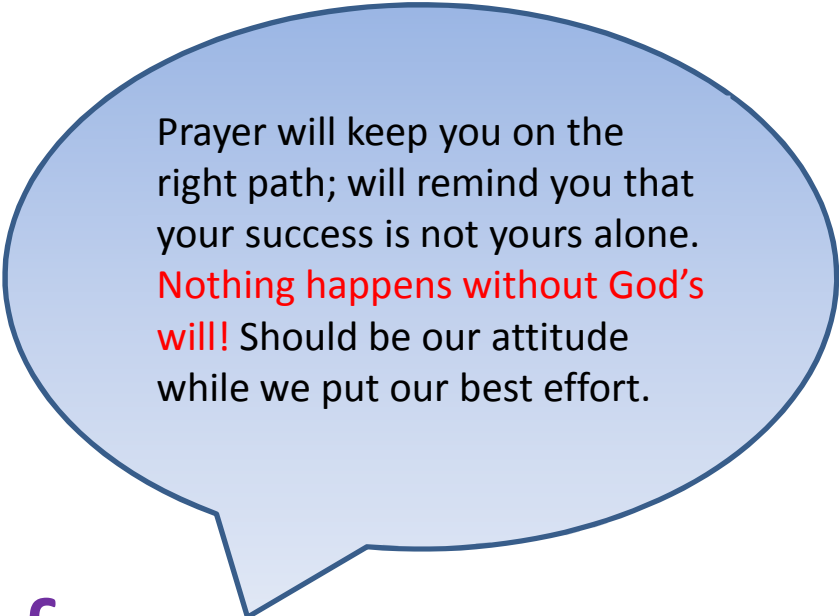

'Shariram Adya Khalu
Dharmasadhanam' : It is your
body which will help you to
achieve all your dream. So
take care of yourself! 'Sheer
salamat to pagadi pachas'!!

Take care of yourself!

When you do things for yourself, it become stressful, when you do it for a higher purpose, it becomes a source of joy'!!

Put a higher purpose to your
endeavour

Prayer will keep you on the right path; will remind you that your success is not yours alone. **Nothing happens without God's will!** Should be our attitude while we put our best effort.

Power of prayer

Thank you for your patient hearing!

Hope this time was worth it!

May God bless you with all the
success & a great journey of
professional excellence
